

DT-8833H Professional InfraRed Thermometers with Type K Input

DT-8833H Professional InfraRed Thermometers provide fast, easy and accurate readings for most surface temperature measurements with Type K Input and 20 Points Memory.

Features:

1. User selectable °C or °F
2. Laser targeting
3. Automatic data hold
4. Auto power off
5. White backlit LCD display
6. Overrange indication
7. Trigger lock
8. Max, Min, DIF, AVG record
9. High and low alarm
10. Adjustable emissivity
11. Type K temperature measurements
12. High Temperature
13. Optical Resolution

SPECIFICATION:

	8833H
IR Temp. Range	-50°C to 850°C -58°F to 1562°F
Optical Resolution	30:1
IR Temp. Resolution	0.1°C/°F
Type K Temp. Range	-50°C to 1370°C
Type K Temp. Resolution	0.1° up to 2000°
Response Time	Less than 1s
Basic Accuracy	±1.5% of reading
Emissivity	Adjustable 0.10~1.0
Size(H*W*D)	180mm*106mm*48mm
Weight	250g
