# GO\*FIND 22

METAL DETECTOR

Solve mysteries and find fortunes with the all-new GO-FIND 22 by Minelab – a compact detector for beginners that’s big on simplicity. With its two Find Modes and Easy-Trak technology the GO-FIND 22 will have you detecting like a pro in just minutes. And recovering more finds time after time. It’s the perfect detector to ignite your passion for detecting whether you’re searching on land or in the water.

GO\*FIND 22

## THE SMART DETECTOR CHECKLIST

**COMPACT:** Size Matters. Simply unfold and away you go.

**LIGHTWEIGHT:** 20% Lighter\* – Detect all day. And the next.

**EASY-TRAK:** From parks to beaches. Just set and go.

*\*Based on similar competitor offerings*

**FIND MODES:** Icons flash to tell you what you’ve found. You can even tell GO-FIND what types of objects you want to target by selecting from two pre-set modes.

## COMPACT AND LIGHT: SIZE MATTERS. SIMPLY UNFOLD AND AWAY YOU GO.

One of the first things you’ll notice when you grab a GO-FIND 22 is how light it is. With no assembly required and pre-set controls, you’ll be detecting in just minutes. Simply unfold, turn-on and it’s ready to go.

## EASY-TRAK FROM PARKS TO BEACHES. JUST SET AND GO.

The GO-FIND 22 is truly the ‘turn on and go’ detector. While other detectors require you to learn about complicated ‘ground balancing’ techniques, the GO-FIND intelligently senses what type of ground you’re on. So you can easily move from the park to the beach without having to adjust your detector or put it in a special mode. Put simply, GO-FIND’s Easy-Trak automatically reduces ground noise and maximizes target signals. And that means you’ll find more treasure and less trash. GO-FIND with Easy-Trak: It’s detecting made simple.
