

Designed for the telecom professional, this kit is for use on single conductors, twisted pairs, coax cables and de-energized electrical wiring. The only thing missing is complexity.

The 77GX Tone Generator incorporates a host of features including microprocessor controlled circuitry for increased reliability, three selectable tone outputs for multiple line identification, two-line polarity indication for fast outlet checks and selectable power outputs for use on open or shorted pairs. The 200GX Inductive Amplifier features a simple, one-button operation and comfortable, ergonomic design. The adjustable volume control, LED visual signal strength indication, and powerful speaker make the 200GX ideal for noisy environments. To provide a single solution for the professional - Tempo's 711K Professional Tone and Probe Kit combining the 77GX Tone Generator and 200GX Inductive Amplifier in a rugged carrying case.

- Fast, Accurate Wire Identification
- Rugged Industrial Design
- Sends Tone to Identify Wires
- Three Selectable Tone Outputs
- Two-line Polarity Indication
- Continuity Test
- Adjustable Volume Control
- Visual Signal Strength Indication
- Powerful Speaker for Noisy Environments
- Recessed Telephone Test Set Connectors
